

Remuneration Appendix 2019

This appendix is designed to set out the components of the Cost of Employment (CoE) schedule and related benefits. Your CoE and related benefits are subject to the conditions and rules as set out on the HR website, see:

www.hr.uct.ac.za.

1. Components of the CoE schedule

1.1. University of Cape Town Retirement Fund (UCTRF)

All permanent and T2 contract staff are required, as a condition of service, to become members of the employer's provident fund, the University of Cape Town Retirement Fund (UCTRF). In terms of the rules of the UCTRF, contributions to the UCTRF are payable by the employer as part of a staff member's CoE:

- Either 22.5% of the Deemed Pensionable Amount for all staff except the T2 contract staff listed below
- Or 20.912% of the Deemed Pensionable Amount for T2 contract staff whose current contract commenced prior to 1 July 2017

The Deemed Pensionable Amount (DPA) is a percentage of guaranteed CoE and is a figure used to calculate the amount allocated to the UCTRF and UCTRF benefits. Staff may elect this percentage whenever their COE changes. The following are the default DPAs linked to annual CoE:

Annual Cost of Employment	Default DPA
Up to R150 000	70%
R150 001 to R250 000	75%
R250 001 to R400 000	78%
R400 000 +	80%

Staff may negotiate an increase or decrease in their DPA which will result in a greater or lesser UCTRF contribution amount. There will be an associated increase or decrease in the Group Life Assurance cover, disability cover, income continuation benefit and the fringe benefit taxes. Please note, however, that any increase in the UCTRF contribution will not result in an increase in your guaranteed CoE, but will form part of your guaranteed CoE. Full details of the UCTRF may be found at www.uctrf.co.za.

The DPA amounts are optional between 50% and 100% subject to the following conditions:

- Staff who increase their DPA by more than 10% annually may be required to complete a health questionnaire for the insurer who reserves the right to limit the cover based on their underwriters assessment.
- Once a member has increased their DPA they can only change it, at a future annual CoE review, to a minimum of 50% of their guaranteed CoE.
- Staff who decrease their DPA to less than the default amount must schedule an interview with their [HR Practitioner](#) who will take them through the consequences of their decision and ask them to sign an acknowledgment of these consequences.

If your total retirement fund contributions (pension fund, provident fund and/or retirement annuity) exceeds 27.5% or R350 000 of your total tax earnings for the current year, you will be taxed on the excess.

1.2. UCTRF additional voluntary contributions

The rules of the UCTRF allow the employer to make additional contributions to the UCTRF on the member's behalf. The additional contributions are based on DPA and are for the purpose of increasing retirement savings.

Contributions may be changed whenever your CoE changes. You need to reflect this on your CoE schedule.

Members can make additional voluntary contributions (AVC's) of between 1% and 10% of DPA (in whole percentages). Member's who currently make AVC's of 2.66% or 5.33% of DPA may continue but this will be phased out and it does not purchase past service.

1.3. Optional annual service bonus and savings scheme

UCT offers an optional service bonus which forms part of your CoE and which is paid annually in November. The service bonus is calculated as the Benefit Amount (BA) divided by 13 (BA = 70% of CoE). The service bonus is payable to staff on a pro-rata basis upon termination of service i.e. resignation prior to 30 November in a year. Staff may elect to have the service bonus as an allocation from their CoE paid in November each year or on a monthly basis. A staff member may elect this option during the annual CoE review or when their CoE changes as a result of a contract change or when they receive a new CoE schedule.

Staff who wish to set aside additional savings may elect to do so via the annual increase exercise in January each year. Contributions are deducted from January to October and the saved amount is refunded to the staff member in November. If selected, the additional savings option may not be changed until the following January. If a staff member opts out of the savings scheme, they will not be permitted to join again.

1.4. Travel allowance

A travel allowance may be included in a negotiated package for staff in payclass 10 and above, or lecturer level and above who, by reason of the nature of their duties, are required to use their personal motor vehicles for business purposes. Any such allowance is paid to the employee to defray the cost of travelling using a motor vehicle owned or leased by the employee. The payment will take the form of a fixed monthly allowance. 80% of this allowance will be subject to PAYE. The South African Revenue Services (SARS) requires that travel allowances be based on expected business expenditure from the employer's perspective. SARS will therefore look to UCT to justify the quantum of each allowance received by employees. Please note that business travel excludes travel between home and place of work.

Should you wish UCT to allocate a travel allowance to you as part of your CoE package you must submit a motivation *each year*, approved by the Head of Department, which outlines the reasons for the expected UCT business travel expenditure as well as an estimation of your expected business mileage. *The motivation must be approved by the Head of Department. This must be sent to the Human Resources Department for the attention of Margie Tainton, Director: Compensation and Benefits - Room 221, Bremner Building.*

1.5. Cash salary (after CoE allocations)

The cash amount may not be constant; as any change in the CoE package structure *will* result in an adjustment to the cash amount (e.g. the UCTRF contributions are changed as a result of the staff member increasing their Deemed Pensionable Amount as part of the annual COE review).

2. Deductions not listed on CoE schedule

2.1. Medical aid scheme

PASS employees on permanent and T2 conditions of service (excluding pay classes 1 to 6) are required to become members of either the University's medical aid scheme (currently) Discovery Health or another external registered South African medical aid scheme as a main member or spouse/partner dependant. Those who elect not to join the UCT medical aid scheme will be requested to provide proof of medical aid membership annually.

Academic staff members on permanent conditions of service are required to become members of the UCT medical aid scheme unless they provide proof of membership as a spouse/partner dependant on an external registered South African medical aid scheme.

Academic staff members on T2 conditions of service are required to become members of the UCT medical aid scheme unless they provide proof of membership as a main member or spouse/partner dependant on an external registered South African medical aid scheme.

Further details on the medical aid policy can be found at: www.hr.uct.ac.za/hr/benefits/healthcare/medicalaid_policy

Medical aid is a direct deduction from your net pay and the amount of tax relief will be up to a maximum of R303 for each of the first two beneficiaries and R204 for each additional beneficiary thereafter.

2.2. Parking

Parking is a direct deduction from your net pay. Staff bringing a motor vehicle onto the campus are required to purchase a parking disc. Red bays are allocated to academics (senior lecturer and above) or PASS staff. Yellow bays are allocated to academics at lecturer level and below and for PASS staff. Please refer to the application form ([TA01](#)) for information about applying for a parking disc.

3. CoE calculator

There is a useful [remuneration simulation calculator](#) which allows you to see the impact of changing allocations and will give you an estimate of your net pay.
